Thank you to families of students in Key Stage 3 for your support with our Numeracy event earlier in the week. It was great to hear about the various maths games and audience participation, whilst exploring different ways to engage students with numeracy at home.

Our students have been thinking about a wide range of ideas beyond their subject curriculum this week. Their assemblies have focused on International Women's Day. This is an opportunity to celebrate women's achievements, raise awareness of discrimination, and take action to drive equality. The theme this year is *#inspireinclusion*. In English lessons, students have been celebrating World Book Day, by thinking about their favourite books, authors or genres. In a lesson yesterday, students were telling me about a wide range of fiction they've read and enjoyed, ranging from gothic novels, historical texts, science fiction, science fantasy, and Roald Dahl classics! The Hive (our library) has also been running a book swap scheme, to encourage and promote reading for pleasure. This week has also been National Careers Week and our 4<sup>th</sup> Careers Spotlight Week, with students considering links between different subjects and career opportunities.

In the previous bulletin, I mentioned that our Year 12 Geographers were on their residential fieldtrip to Pembrokeshire this week. I've heard they have been having a fantastic time exploring South-West Wales' diverse physical and human landscape, collecting data for their NEA (coursework). They are returning, as I write this roundup, as a group of GCSE students prepare to leave us for a residential in France at the weekend. Wishing them Bon Voyage!

Have a lovely weekend everyone.

Mr M A Grantham  
Head of School

## Information

### School Transport Policy Consultation

BfFC is seeking families' views on [proposed changes to its school transport policy](#). The consultation is open until **Sunday, 17 March 2024** and is related to the following proposals

- That free transport entitlement for pupils attending Maiden Erlegh Chiltern Edge School is removed.
- That travel assistance entitlement for eligible pupils is clarified and means an offer of a bus pass or school bus at a pickup point, with an expectation for active travel as part of a child's healthy development.
- That the policy clarifies the exceptional circumstances required to access any exceptional additional support in addition to travel assistance
- That the policy clarifies that parents are liable for costs incurred by Brighter Futures for Children on behalf of Reading Borough Council if children did not access travel assistance provided.
- That the policy clarifies that students are not entitled to travel assistance post-16 except in appropriately evidenced, exceptional circumstances.

A copy of the [proposed new policy and a summary of changes](#) can be found on the BfFC website, along with a [short series of consultation questions](#).

### Problems with Class Charts

If you are experiencing issues with accessing your Class Charts account, please contact [office@highdown.reading.sch.uk](mailto:office@highdown.reading.sch.uk)

### Community 'Safe Space'

Lucy Glover from the No5 Charity will be in school from next week. She will be around at break times to ask students about what they would like to have in a community 'Safe Space'. This is part of a wider project to create a community 'Safe Space' for young people to attend. Lucy is also visiting Emmer Green Primary so younger siblings may already know the name. Lucy will be wearing a Purple No5 hoodie so students can identify her. Please encourage your child to have a chat with her and share some of their ideas.

### The PTA Quiz night is fast approaching!

Tickets are on sale now.

### Absence Reporting

Please notify us if your son/daughter is unable to attend either online or onsite lessons due to illness or other reason.

**Please report all absences using the Class Charts app rather than by telephone, email or ParentMail. We hope parents will find this route much more straightforward and efficient. You can find out more here:**

## What Parents & Educators Need to Know about TEKKEN 8

### WHAT ARE THE RISKS?

Thirty years after its debut on the original PlayStation, the Tekken franchise is back with its eighth mainstream instalment. A one-on-one fighting game series in the same vein as Street Fighter and Mortal Kombat, Tekken 8 can be commended for its relative lack of in-game purchases – but there's still plenty to consider in keeping young players safe from potential hazards.

### FUTURE SPENDING?

Tekken 8 carries a PEGI 16 rating, with the assessors noting its violence, occasional profanity and in-game purchase options. The latter issue, however, is a little different to what you may expect from a modern game: unlike many high-profile releases, Tekken 8's content is all accessible without spending any extra money. The exceptions are new characters, which will become available to purchase separately in the future.

### FAMILY CONFLICT

Tekken 8's story mode, 'The Dark Awakens', focuses on two of the series' most important characters – Kazuya and Jin, a father and son who have been warring for years. The sight of two family members physically fighting each other may be hard to understand (and difficult to deal with) for some children – causing confusion and concern over why relatives would want to hurt one another.

### COPYCAT RISK

With characters flying across the screen using a mixture of authentic and fantastical fighting styles, younger children and impressionable teens may find themselves tempted to copy their favourite characters or act out their epic fights in real life. This could simply amount to harmless fun – but could also easily lead to accidents, injury and distress if young gamers start actually landing blows.

### RANKED ONLINE PLAY

Tekken 8 features an array of online modes – most notably its 'Ranked' section, where players battle to reach the top spot of a worldwide leaderboard. Many players will dedicate significant amounts of time to practising and – while the challenge can be fun – some of these matches can get extremely competitive. Children could become obsessed with climbing the rankings and dedicate an unhealthy amount of time to the game or grow angry if they wind up on a losing streak.

### VIOLENT GAMEPLAY

As a fighting game, Tekken 8's gameplay is heavily based on punching, kicking and throwing opponents around – while some characters' attacks occasionally involve weapons. Most of the violence is comparatively cartoonish in its execution and lacking in gore, but the fact remains that the action still revolves entirely around intense combat and inflicting damage on an opponent.

### ONLINE CONTACT

Tekken 8 doesn't offer voice chat by default, but a player's platform ID is visible (such as their PlayStation Network ID, Steam account or Xbox gamertag). Rival players can, therefore, reach out via messages if they wish. Given the game's fiercely competitive nature, these communications can potentially put children at risk of online abuse if their opponent is a particularly sore loser.

## Advice for Parents & Educators

### TRY IT OUT YOURSELF

As with many popular games, we'd recommend checking it out for yourself in advance if you have any concerns. In the case of Tekken 8, there's a free demo version available (for all platforms) which lets you experience fights with a handful of the characters: a useful way of establishing first-hand whether some children might find the game's violence to be too intense.

### EXERCISE YOUR JUDGEMENT

While Tekken 8 features a sort of 'spray' impact effect when attacks land, it's not the kind of game that most observers would describe as gory (unlike, for instance, the Mortal Kombat franchise). Of course, any fighting game worthy of the name will include a significant degree of violence – but the level at which the battles in Tekken are pitched may not be an issue for some children.

### MARTIAL ARTS MOTIVATION?

With characters utilising real-world fighting styles such as jiu-jitsu, boxing and kickboxing, Tekken could represent an opportunity to channel a child's fondness for the game into a beneficial interest in real-world martial arts. Classes can help to build young people's confidence and physical fitness, as well as providing avenues for making new friends.

### CONTROL COMMUNICATIONS

If a child plays Tekken online with anyone apart from their friends, then parents and carers could consider restricting communications – such as shutting off the facility to be messaged by other players (although the child's profile name will still be displayed) – to reduce the chance of contact from strangers. This can be done via the console's account settings or through the child's Steam account (if playing on PC).

### Meet Our Expert

Editor in Chief of gaming and esports site GGRecon, Lloyd Coombes has worked in the games media industry for five years. He's played every Tekken title since the series began and, as a parent, also values the importance of online safety. Writing mainly about tech and fitness, his articles have been published on influential sites including ION and TechRadar.

## National Careers Week: 4 - 9 March 2024

This past week has been **National Careers Week** and our fourth Careers Week in school of the academic year. Students have had a number of opportunities from a range of guest speakers. Included were Reading College thinking about higher education and apprenticeships; University of Hertfordshire focusing on choosing degree courses and a university; local employers, and a range of presentations from a diverse array of careers. Thank you to everyone involved, to our guests, to staff, and to students for your fantastic engagement.

Mr Franks and Miss Barnett:

## Culture, Character and Citizenship

### Culture, Character and Citizenship Next Week

**Year 7: Community and Social Influencers**

**Year 8: Health (Dental)**

**Year 9: Consent**

**Year 10: Fraud**

**Year 11: Families, Coercion**

**Year 12: UK Economy**

**Year 13: Income and Expenditure**

## Year 11

### Further Mathematics

It's a record-breaking year for our GCSE Further Mathematicians. Led by Mr Larsen, every Friday from 3.15pm, the lower school study room is transformed into a Further Maths classroom for the more than 50 students who have chosen to take this qualification in the Summer. We have been so impressed by the maturity and commitment that our Year 11s have shown in these lessons and it is a real pleasure to work with them. Thanks also go to Georgie Wilson and Ollie Williams (two of our Y12 Maths Support Tutors) who are volunteering to help in these sessions.

Mr R Larson

## Year 12

### National Cipher Challenge

Congratulations to Madeleine R and Benedek N who placed 6<sup>th</sup> out of hundreds of teams nationally entering this year's Cipher Challenge. The Challenge is organised by Southampton University with support from the professional cryptologists at GCHQ. Teams work on solving weekly, increasingly difficult, challenges throughout the Autumn Term with points being awarded for the speed and accuracy of solutions.

In recognition of this amazing achievement Benedek and Madeleine were invited to Bletchley Park last week for a tour and series of talks. One of the highlights was a talk from a GCHQ scientist who, due to the nature of his work, had to leave more to the imagination than he could actually describe to the audience. The mystique was only added to by the 'request' not to take any photos of him!

We really want to build on this year's success and whilst Maddie and Benedek will be aiming for a podium finish in this Autumn's challenge, they are also keen to mentor our next cohort of Highdown Cryptologists. Look out for more details in the Summer Term but if you have any questions in the meantime, you can contact Mr Dineley at [widineley@highdown.reading.sch.uk](mailto:widineley@highdown.reading.sch.uk)

Well done Benedek and Madeleine!

Mr W Dineley

During March we are looking at Graphic Novels and Manga recommendations in the Hive

Graphic novels, manga and comic books can be especially appealing to readers who are reluctant to read a more traditional book.

They are full of exciting stories and artwork that encourage readers to think creatively and use their imagination.

These books are a great way to strengthen vocabulary, help confidence with reading and build a deeper appreciation for storytelling.

<p><b>Anonymous Noise Vol 1 – Ryoko Fukuyama</b> Nino Arisugawa, a girl who loves to sing, experiences her first heart-wrenching goodbye when her beloved childhood friend, Momo, moves away. And after Nino befriends Yuzu, a music composer, she experiences another sad parting! Both boys promised Nino that they would find her one day through her singing, so she holds on to that hope and continues to reach out with her voice. Now in high school, Nino serendipitously reunites with Yuzu, but she yearns to see Momo again.</p>		<p><b>MacBeth (William Shakespeare) – Robert Deas &amp; Richard Appignanesi</b> Samurai warriors have reclaimed a future post-nuclear world of mutants in the original manga version of Shakespeare's tale of Skullduggery. The series keeps true to Shakespeare's original text, but is specially abridged for use in the manga, which makes it ideal for students to use as a primer and a way of getting to grips with the themes in Shakespeare's plays.</p>	
<p><b>Alex Rider, Vol. 1: Point Blanc – Anthony Horowitz</b> Investigations into the "accidental" deaths of two of the world's most powerful men have revealed just one link: both had a son attending Point Blanc Academy, a school for rebellious rich kids run by the sinister Dr Grief and set high in the French Alps. Armed with a new collection of gadgets, Alex must infiltrate the academy as a pupil and establish the truth about what is really happening there.</p>		<p><b>Coraline – Neil Gaiman</b> When Coraline moves to a new house she is fascinated by the fact that their house is in fact only half a house. Divided into flats years before, the other flat, it soon becomes clear to Coraline, is not quite as cosy and safe as her own.</p>	

eBooks and Audiobooks are available to all Highdowners at:

<https://highdown.eplatform.co/>

All you need is your Highdown log-in

<p><b>eBook – Graphic Novel</b> <b>In Odd We Trust – Holly Bourne</b> The first graphic novel from Dean Koontz, featuring the famously well-loved character of Odd Thomas. Nineteen-year-old Odd Thomas, a young fry cook from Pico Mundo, California, can see the dead. Beautifully drawn by Australian artist Queenie Chan, this graphic novel tells the story of Odd's race to solve the murder of a young boy whose killer appears to be stalking a second child. With the help of his beautiful girlfriend Stormy, his friend Police Chief Porter and the ghost of Elvis Presley, Odd must find the killer before he strikes again.</p>		<p><b>eBook – Manga</b> <b>Boys Don't Cry – Malorie Blackman</b> In Boys Don't Cry, bestselling author Malorie Blackman explores the uncharted territory of teenage fatherhood. You're waiting for the postman - he's bringing your A level results. University, a career as a journalist - a glittering future lies ahead. But when the doorbell rings it's your old girlfriend; and she's carrying a baby. Your baby. You're happy to look after it, just for an hour or two. But then she doesn't come back - and your future suddenly looks very different.</p>
