

We currently have a high number of companies contacting us to offer **Year In Industry** placement opportunities starting this year, so we have decided to keep the YINI Registration window open to 2019/20 placement applicants.

These excellent placement opportunities will start this August/September (for 12 months) and are ideal for **Year 13 students interested in gaining relevant paid work experience** in the following subject areas, before starting their degree or apprenticeship;

- **Business, HR or Finance**
- **Computing or Software**
- **Maths or Physics/Science**
- **Engineering (civil, electronics/electrical or mechanical)**

What do students need to do?

Register online via the YINI Website: <http://www.etrust.org.uk/the-year-in-industry/apply-now>

*It's **free** for students to register and the simple online form takes about 10 minutes to complete. The YINI Team will then be in contact to take the Student through the next steps. Students must have the Right to Work in the UK (we will provide guidance on the acceptable documentation).*
