

Biology A-level at Highdown

You will need to spend some time over the summer familiarising yourself with this course specification.

You will need **to print off chapter 1 – Subject content – from the specification.**

Ensure you have this at the front of your folder - this will allow you to use it as during the running of the course.

The specification for this course can be found at <http://www.aqa.org.uk/subjects/science/asand-a-level/biology-7401-7402>

The relevant section from your taster session can be found in section 3.1.1 Monomers and Polymers 3.1.2 Carbohydrates

Discovery Task

Reading Task:

Read through the relevant chapter in the course text book – Chapter 1 pages 8-15 (reference below).

Task questions:

Attempt practice questions at the end of the chapter and hand them to your teacher on during your first biology lesson.

Create a glossary of all key words

References

Required Textbook:

AQA Biology 2nd edition: A level Year1 and AS. Authors Glenn & Susan Toole. ISBN: 978-0-19-835176-4

Deadline

You are expected to have the above completed by **Tuesday 10 September 2019**
