Curriculum and assessment

YEAR 12

The first year is a time of learning new skills and building on knowledge already gained. You will experiment with materials and techniques, skills and methods to help you develop your own ideas. You will be supported by your teachers, who will be preparing you for the challenge of the Personal Investigation, which you will start in the Summer Term and continue with in Year 13.

During this year you are required to work in two or more areas of art and design, such as painting, drawing, mixed media, graphics, sculpture, photography and printmaking.

Projects will consist of research, development, investigation, experimentation and final outcomes.

YEAR 13

This year is split into two units of work; a coursework portfolio and an externally set assignment which culminates in a 15 hour examination at the end of the course.

During this year you will produce a Personal Investigation which is practical by nature, leading to a finished piece or pieces and is supported by a compulsory written element that links the work of other artists to the project. In this unit you are in charge and with our support you will produce a portfolio of work that reflects your strengths and interests. You will be encouraged to work in a variety of ways, exploring fully the subject you have chosen and utilising the skills you have learnt over the course.
